Chicago – St. Louis High Speed Rail
2010-2014 Construction Phase

- In January, Illinois was awarded $1.2 billion from the American Recovery and Reinvestment Act for high-speed passenger rail.

- $1.1 billion of the total award was allocated for Illinois' high speed rail signature route.

- On September 1, 2010, construction began on a 90 mile segment from just north of Alton to south of Springfield and north of Springfield to Lincoln.
