

**NEW** - A summary of public input from the November 16th open house is now available. Thank you to those who completed a comment form; we received a total of 233. To view the summary, [click here.](#)

To view the informational display boards presented at the Tuesday, November 16th open house use the open house stations menu to the right.

The purpose of the study's second public open house was to:

- Present alternatives for accommodating increasing rail traffic;
- Share the factors being considered in the alternative selection process;
- Show the preliminary evaluation results for each alternative based on these factors; and
- Obtain public input on which alternative will best serve the City of Springfield.

Open House Station List:

Station #1: Project Information & Alternative Selection Criteria   **Station #2: ☐☐ Double Track  
3rd Street**   Station #3:  
Historic Structures

**Station #4: ☐☐ Shift 3rd Street to 10th Street**

Station #5: Noise & Vibration

Station #6: Corridor Redevelopment

**Station #7: ☐☐ Shift 3rd Street and 19th Street to 10th Street**

Station #8: Land Acquisition

Station #9: High Speed Rail

Station #10: Non-viable Alternatives

Station #11: Public Engagement
