Section 106 of the National Historic Preservation Action of 1966 requires Federal agencies to consider the effects of their proposed actions on historic properties.

The Section 106 process also encourages the incorporation of historic preservation values into project planning through consultation among parties with an interest in the effect of the undertaking on historic properties. Because consultation is a dynamic good-faith process of discussing options, considering multiple views, and seeking agreement among a variety of parties, your regular attendance, active participation, and constructive comments will be expected throughout the Section 106 process.

Please summarize your interest in this rail improvement project and the Carpenter Street Underpass archaeological site:
